Introduction	xxiii
Chapter 1. The Case for Failure Mode and Effects Analysis	1
In This Chapter / 1	
1.1 The Need for Effective FMEAs / 1	
1.2 FMEA Application by Industry / 4	
1.3 The Factor of 10 Rule / 5	
1.4 FMEA Successes / 6	
1.5 Brief History of FMEA / 8	
1.6 FMEA Standards and Guidelines / 8	
1.7 How to Use This Book / 9	
1.8 Web Companion to <i>Effective FMEAs</i> / 10	
1.9 End of Chapter Problems / 10	
References / 11	
Chapter 2. The Philosophy and Guiding Principles for Effective FMEAs	12
In This Chapter / 12	
2.1 What Is Philosophy and Why Does It Matter to FMEAs? / 12	

- 2.2 Guiding Principles for Effective FMEAs / 13
 - 2.2.1 Having the Right Objectives / 13
 - 2.2.2 Having the Right Resources / 14
 - 2.2.3 Having the Right Procedures / 16
- 2.3 The Role of FMEA in Design for Reliability / 17
- 2.4 You Can't Anticipate Everything / 18
- 2.5 End of Chapter Problems / 19
 - References / 20

Chapter 3. Understanding the Fundamental Definitions and Concepts of FMEAs **21**

- In This Chapter / 21
- 3.1 Definition of FMEA / 21
- 3.2 Primary Objective of FMEA / 22
- 3.3 Definition of Failure Mode Effects and Criticality Analysis / 22
- 3.4 Types of FMEAs / 23
- 3.5 FMEA Definitions and Examples / 25
 - 3.5.1 Item / 26
 - 3.5.2 Function / 27
 - 3.5.3 Failure Mode / 28
 - 3.5.3.1 Failure Modes at System/Subsystem Level versus Component Level / 30
 - 3.5.4 Effect / 32
 - 3.5.5 Severity / 34
 - 3.5.6 Cause / 36
 - 3.5.7 Occurrence / 38
 - 3.5.8 Controls / 38
 - 3.5.9 Detection / 43
 - 3.5.10 Risk Priority Number / 44
 - 3.5.11 Recommended Actions / 45
- 3.6 Is It a Failure Mode, Effect, or Cause? / 48
- 3.7 FMEA Glossary / 49
- 3.8 Web Companion to *Effective FMEAs* / 51
- 3.9 End of Chapter Problems / 51
 - References / 55

Chapter 4. Selection and Timing of FMEA Projects **56**

- In This Chapter / 56
- 4.1 Guidelines for When to Do FMEAs / 56
- 4.2 FMEA Project Selection Criteria / 58

- 4.3 Preliminary Risk Assessment / 59
- 4.4 When to Do Different Types of FMEAs / 60
- 4.5 Responsibility for FMEAs between OEMs and Suppliers / 62
- 4.6 Introducing the All-Terrain Bicycle Case Study / 63
- 4.7 End of Chapter Problems / 64

Chapter 5. How to Perform an FMEA Project: Preparation

66

- In This Chapter / 66
- Use of the Bicycle Examples in the Chapter / 66
- 5.1 The Subject of FMEA Preparation / 67
- 5.2 Preparation Tasks Done *Once* for All FMEA Projects / 67
 - 5.2.1 FMEA Software Selection / 67
 - 5.2.2 Selecting or Modifying FMEA Worksheets and Scales / 68
 - 5.2.3 Identifying Roles and Responsibilities / 70
 - 5.2.4 FMEA Team Training / 72
 - 5.2.5 Legal Guidelines for Doing FMEAs / 72
 - 5.2.6 Meeting Logistics / 73
 - 5.2.7 Defining the System Hierarchy (For System and Design FMEAs) / 73
 - 5.2.8 Defining the Process Steps (for Process FMEAs) / 75
 - 5.2.9 Access to Failure Information / 76
- 5.3 Preparation Tasks for *Each New* FMEA Project / 78
 - 5.3.1 Determine the Scope of the Analysis / 79
 - 5.3.2 Make the Scope Visible (for System and Design FMEAs) / 82
 - 5.3.2.1 FMEA Block Diagram / 82
 - 5.3.2.2 FMEA Interface Matrix / 84
 - 5.3.2.3 Parameter Diagram (P-Diagram) / 85
 - 5.3.2.4 Functional Block Diagram / 87
 - 5.3.3 Make the Scope Visible (for Process FMEAs) / 88
 - 5.3.3.1 Process Flow Diagram (PFD) / 88
 - 5.3.3.2 PFD Worksheet / 91
 - 5.3.4 Assemble the Correct Team / 93
 - 5.3.5 Establish the Ground Rules and Assumptions / 96
 - 5.3.6 Establish the Role of Suppliers / 98

- 5.3.7 Gather and Review Relevant Information / 98
 - 5.3.7.1 “Gather Information Checklist” (for System and Design FMEAs) / 100
 - 5.3.7.2 “Gather Information Checklist” (for Process FMEAs) / 101
- 5.3.8 Prepare FMEA Software for First Team Meeting / 102
- 5.3.9 Ready-for-First-Meeting Checklist / 103
- 5.4 End of Chapter Problems / 103
- References / 106

Chapter 6. How to Perform an FMEA Project: Procedure 107

- In This Chapter / 107
- Use of the Bicycle Examples in the Chapter / 107
- 6.1 FMEA Procedure Sequence of Steps / 108
- 6.2 Basic FMEA Procedure / 109
 - 6.2.1 Items / 109
 - 6.2.2 Functions / 111
 - 6.2.2.1 Requirements / 113
 - 6.2.2.2 Checklist of Function Types / 114
 - 6.2.3 Failure Modes / 119
 - 6.2.4 Effects / 121
 - 6.2.5 Severity Ranking / 125
 - 6.2.6 Classification (Optional) / 127
 - 6.2.7 Causes and Failure Mechanisms / 129
 - 6.2.7.1 Failure Mechanisms (for System and Design FMEAs) / 131
 - 6.2.7.2 Five Whys / 136
 - 6.2.8 Occurrence Ranking / 138
 - 6.2.9 Controls / 140
 - 6.2.9.1 Design Controls for System or Design FMEAs / 140
 - 6.2.9.2 Process Controls for Process FMEAs / 141
 - 6.2.9.3 Use of Early Warning Devices and Mitigating Controls / 142
 - 6.2.10 Detection Ranking / 145
 - 6.2.10.1 Detection Scale for Assessing Risk Related to In-Service Detection Systems / 146
 - 6.2.10.2 Limitations and Alternatives to Using Detection Ranking / 147
 - 6.2.11 Risk Priority Number (RPN) / 148
 - 6.2.11.1 Limitations and Alternatives to Using RPN / 150

6.3	FMEA Linkages / 152
6.3.1	System or Design FMEA Linkage to Design Verification Plan / 152
6.3.2	Process FMEA Linkage to Process Control Plans / 153
6.3.3	Design FMEA Linkage to Process FMEA / 155
6.3.4	Relationship between System, Subsystem, and Component FMEAs / 157
6.4	End of Chapter Problems / 158
	References / 161

Chapter 7. How to Develop and Execute Effective Risk Reduction Actions **162**

	In This Chapter / 162
	Use of the Bicycle Examples in the Chapter / 162
7.1	Prioritize Issues for Corrective Action / 163
7.1.1	Is Action Always Required on High Severity Issues? / 164
7.2	Develop Effective Recommended Actions / 165
7.2.1	Quality and Reliability Resources to Help Formulate FMEA Recommended Actions / 166
7.3	Action Strategies to Reduce Risk / 166
7.3.1	Action Strategies to Reduce <i>Severity Risk</i> / 167
7.3.2	Action Strategies to Reduce <i>Occurrence Risk</i> / 168
7.3.3	Action Strategies to Reduce <i>Detection Risk</i> / 172
7.3.4	Common Action Strategy Mistakes to Avoid / 174
7.4	Examples of Recommended Actions / 176
7.5	FMEA Execution Enablers / 176
7.6	The Essence of Execution / 182
7.7	Documenting Actions Taken / 182
7.8	Ensuring Risk Is Reduced to an Acceptable Level / 183
7.9	End of Chapter Problems / 183
	References / 186

Chapter 8. Case Studies **187**

	In This Chapter / 187
8.1	Case Study: Shock Absorber Assembly / 188
8.2	Case Study: Strudel Pastry Manufacturing / 190

- 8.3 Case Study: Motorola Solutions “Press-to-Talk” Feature / 193
- 8.4 Case Study: Flashlight / 200
- 8.5 Case Study: DC-10 Cargo Door Failure / 200
- 8.6 Case Study: Space Shuttle Challenger O-Ring Failure / 204
- 8.7 Case Study: Projector Lamp / 206
- 8.8 Case Study: All-Terrain Bicycle / 206
 - 8.8.1 All-Terrain Bicycle System FMEA / 206
 - 8.8.2 All-Terrain Hand Brake Design FMEA / 209
 - 8.8.3 All-Terrain Brake Cable Design FMEA / 209
 - 8.8.4 All-Terrain Process FMEA (Wheel Spoke Installation) / 209
- 8.9 Case Study: Resin Lever / 213
- 8.10 Case Study: Power Steering / 217
- 8.11 Other Case Studies and Examples / 217
- 8.12 Web Companion to *Effective FMEAs* / 221
- 8.13 End of Chapter Problems / 221
 - References / 224

Chapter 9. Lessons Learned for Effective FMEAs **226**

- In This Chapter / 226
- 9.1 The Most Common FMEA Mistakes: How to Avoid Them and Audit Them / 226
- 9.2 Summary of FMEA Quality Objectives / 235
- 9.3 FMEA Quality Audit Procedure / 235
- 9.4 End of Chapter Problems / 236

Chapter 10. How to Facilitate Successful FMEA Projects **241**

- In This Chapter / 241
- 10.1 FMEA Facilitation / 241
- 10.2 Effective Meetings / 242
- 10.3 Primary FMEA Facilitation Skills / 243
 - 10.3.1 Brainstorming / 243
 - 10.3.2 Asking Probing Questions / 244
 - 10.3.3 Encouraging Participation / 245
 - 10.3.4 Active Listening / 245
 - 10.3.5 Controlling Discussion / 245
 - 10.3.6 Making Decisions / 246
 - 10.3.7 Conflict Management / 247
 - 10.3.8 Facilitator Interventions / 248

10.3.9	Managing Time / 249	
10.3.10	Common Facilitation Problems / 249	
10.3.11	Attitude / 251	
10.4	Unleashing Team Creativity / 252	
10.4.1	Techniques to Stimulate Divergent Thinking / 254	
10.5	FMEA Facilitation Roles and Responsibilities / 255	
10.6	How to Reduce FMEA In-Meeting Time / 261	
10.7	Difficulty Getting Consensus on Competing Ideas / 261	
10.8	End of Chapter Problems / 263	
	References / 265	
 Chapter 11. Implementing an Effective Company-Wide FMEA Process		266
	In This Chapter / 266	
11.1	What Is a Company-Wide FMEA Process and Why Is It Important? / 266	
11.2	Management Roles and Responsibilities / 267	
11.3	Effective FMEA Process / 268	
11.3.1	Planning Stage / 268	
11.3.2	Performing FMEAs Stage / 272	
11.3.3	Review Stage / 274	
11.3.4	Implementation Stage / 277	
11.4	Lessons Learned in Implementing a Company-Wide FMEA Process / 279	
11.5	Company Climate for Sharing Failure Information / 281	
11.6	End of Chapter Problems / 282	
 Chapter 12. Failure Mode Effects and Criticality Analysis (FMECA)		285
	In This Chapter / 285	
12.1	Introduction to FMECA / 285	
12.2	When to Use FMECA / 286	
12.3	Brief History of FMECA / 286	
12.4	Types of FMECA / 287	
12.5	Quantitative Criticality Analysis / 287	
12.6	Qualitative Criticality Analysis / 289	
12.7	FMECA Criticality Matrix / 292	
12.8	FMECA Worksheet / 292	
12.9	Summary Output of FMECA / 292	
12.10	End of Chapter Problems / 294	
	References / 296	

Chapter 13. Introduction to Design Review Based on Failure Mode (DRBFM) 297

- In This Chapter / 297
- 13.1 What Is DRBFM? / 297
- 13.2 Change Point Analysis / 300
- 13.3 Conducting DRBFM Projects / 302
- 13.4 How DRBFM Integrates with FMEA / 304
- 13.5 DRBFM Worksheet / 304
- 13.6 DRBFM Examples and Case Studies / 304
 - 13.6.1 DRBFM Case Study 1 / 304
 - 13.6.2 DRBFM Case Study 2 / 307
 - 13.6.3 DRBFM Case Study 3 / 307
- 13.7 Design Review Based on Test Results / 309
- 13.8 DRBFM Glossary / 311
- 13.9 DRBFM Resources for Further Study / 312
- 13.10 End of Chapter Problems / 313
- References / 315

Chapter 14. Introduction to Fault Tree Analysis (FTA) 316

- In This Chapter / 316
- 14.1 What Is Fault Tree Analysis? / 316
- 14.2 FTA and FMEA / 317
 - 14.2.1 When Should FTA Be Used in Addition to FMEA? / 317
- 14.3 Brief History of FTA / 318
- 14.4 Models / 318
- 14.5 Events and Gates / 318
- 14.6 FTA Example / 319
- 14.7 FTA Glossary / 320
- 14.8 FTA Procedure / 323
- 14.9 FTA Handbooks and Standards / 324
- 14.10 Use of FTA on Software / 324
- 14.11 FTA Benefits and Limitations / 324
- 14.12 End of Chapter Problems / 326
- References / 327

Chapter 15. Other FMEA Applications 328

- In This Chapter / 328
- 15.1 Reliability-Centered Maintenance / 328
 - 15.1.1 RCM and FMEA / 329
 - 15.1.2 RCM: The Seven Basic Questions / 329

15.1.3	RCM Decision Logic Diagrams /	331
15.1.4	RCM Procedure /	331
15.1.5	History of RCM /	334
15.1.6	RCM Definitions /	335
15.1.7	RCM Case Study /	336
15.1.8	RCM Publications and Standards /	337
15.1.9	RCM Benefits /	337
15.1.10	RCM Limitations /	340
15.2	Hazard Analysis /	340
15.2.1	Hazard Analysis and FMEA /	341
15.2.2	Hazard Analysis Procedure /	341
15.2.3	Hazard Analysis Tables and Examples /	342
15.2.4	Hazard Analysis Definitions /	346
15.2.5	Hazard Analysis References and Standards /	347
15.3	Concept FMEA /	347
15.4	Software FMEA /	348
15.4.1	General Procedure for Software FMEAs /	351
15.4.2	Software FMEA Examples /	354
15.4.3	Software FMEA References and Standards /	355
15.5	Failure Modes, Mechanisms, and Effects Analysis /	356
15.6	Failure Modes, Effects, and Diagnostic Analysis /	358
15.7	End of Chapter Problems /	361
	References /	363

Chapter 16. Selecting the Right FMEA Software **365**

	In This Chapter /	365
16.1	Characteristics of Excellent FMEA Software /	365
16.2	Why Not Just Use Spreadsheet Software? /	368
16.3	Advantages of Relational Database /	368
16.4	Using the Criteria for Selecting Relational Database Software /	369
16.5	End of Chapter Problems /	369
	Reference /	370

Appendices **371**

Appendix A	FMEA Scales /	371
Appendix B	FMEA Worksheet Forms /	376
B.1	Design FMEA Worksheet Forms /	377
B.2	Process FMEA Worksheet Forms /	382

- Appendix C All-Terrain Bicycle Documents / 388
- Appendix D Lists and Checklists / 392
 - D.1 FMEA Preparation Checklists / 392
 - D.1.1 Checklist for FMEA Preparation / 392
 - D.1.2 Ground Rules and Assumptions Checklist / 393
 - D.1.3 Gather Information Checklist (for System and Design FMEAs) / 394
 - D.1.4 Gather Information Checklist (for Process FMEAs) / 395
 - D.1.5 Ready-for-First-Meeting Checklist / 395
 - D.2 Lists of Failure Mechanisms (excerpts from book) / 396
 - D.3 FMEA Quality Objectives / 399
 - D.4 FMEA Facilitation Checklists / 400
 - D.4.1 Checklist for Effective Meetings / 400
 - D.4.2 FMEA Facilitator “Thought-Starter” Questions / 401
 - D.5 FMEA Action Strategy Checklist / 405
 - D.6 FMEA Quality Audit Procedure / 409
 - D.7 FMEA Quality Survey Form / 413
- Appendix E FMEA Glossary / 414
- References / 418
